WELCOME TO THE PLAZA

YOUR PATH FORWARD STARTS HERE

At The Plaza, we believe that no two people are alike, and so no two recovery plans should be alike. Our mission is to provide every resident with the tools they need to regain their strength and independence through individualized care plans, hands-on guidance, and warm encouragement.

Our facility, conveniently located in the Bronx near many major hospitals, provides residents with a sanctuary of recovery. Offering luxurious accommodations, state-of-the-art equipment, and top-tier care, all in a warm, welcoming environment.

TRANSITIONAL CARE PROGRAM

As you regain strength and independence and prepare for your return home, we're here to help you transition comfortably and safely.

PRE-DISCHARGE

Our goal is to ensure that you're ready and can transition safely. By openly communicating with your hospital's primary care physician throughout the decision process and transition period, we ensure your entire care team is working together to proactively monitor your health through every step of the way.

- Discharge Planning
- Guidance and Support With Care Options
- Psychosocial and Psychiatric Evaluations As Needed
- In-Home Safety Assessments And Modifications
- Adaptive Equipment
- Coordination and Continuum Of Care

POST-DISCHARGE

Over the course of your first few weeks, a Citadel social worker will check in often to make sure you have what you need and are transitioning well, and jump in if additional support is needed.

CUTTING EDGE CARDIAC CARE PROGRAM

Your heart is central to your health. That's why The Plaza has placed a core focus on developing a high-quality cardiac care program. Our multidisciplinary team pushes beyond expected rehabilitation standards to develop specific interventions that give residents and their families the tools — and the confidence — to move forward.

Each resident receives a customized care plan carefully developed by a board-certified cardiologist together with their personal cardiologist to ensure safe and active management of their heart condition while they recuperate.

Our interdisciplinary team works in concert with our hospital partners to monitor the patient's progression in real-time, tracking trends and making necessary adjustments in preparation for their return to the community. This, coupled with education on health-related topics such as nutrition, exercise, and stress management reduces residents' risk of future cardiac events. Through these proactive approaches, The Plaza has consistently seen the lowest rehospitalization rates for cardiac conditions in the Bronx.

- Dedicated Cardiac Team Led By A Board Certified Cardiologist
- Cardiac NP On-Site
- Ekg, Echocardiogram, Doppler Diagnostics

CULTURE & COMMUNITY

At The Plaza, everyone finds their place. We proudly serve a broad spectrum of ethnic communities and religious faiths.

FACETIME WITH FAMILY

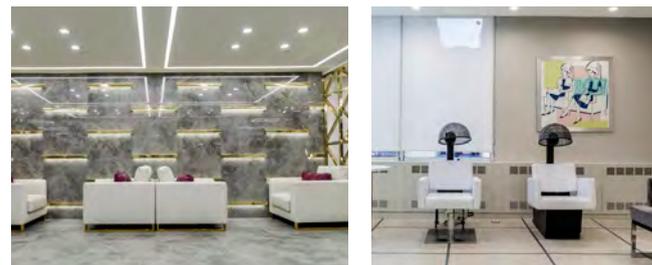

Our Facetime program has revolutionized the way our residents connect with friends and family. iPads are available in our lounges and libraries, and our team is always to help set up a virtual visit.

EXTENDED STAY

RESPITE STAY

Caring for a loved one at home can be complicated. When you need a break, whether for work, travel, or personal time, bring your loved one for a comfortable stay at The Plaza. You'll be able to enjoy your time with peace of mind, knowing that an experienced team is attending to your loved one's needs round-the-clock in warm, caring atmosphere

LONG-TERM CARE PROGRAM

When a loved one requires extra care, more than what can be provided at home, the Citadel team is there. Our team works together to ensure every one of our long-term care residents is living life as fully as possible by providing personalized care and attention, delivered with genuine warmth and dignity.
